Authorisation for the activation of the Carrier 1611

I authorize Belgacom to activate the pre-selection of the carrier on the phone connection, with the on this document mentioned or attached phone numbers.

Line 1 _____ / _____ **Line 3 _____** / _____

Line 2 _____ / _____ **Line 4 _____** / _____

Customer Identification number (this number is in the above right hand corner of your Belgacom bill):

									/		

This activation permits the use of the telephone service of Versatel Belgium (official name of the carrier) for certain calls. The undersigned declares to have entered into a contract with Belgacom concerning the phone connection for which the activation is being requested, and to be authorized in his capacity as contracting party to agree to the activation of the pre-selection of the carrier on the aforementioned connection. The activation of the pre-selection of the carrier will result in certain calls no longer being processed through the telecommunications network of Belgacom, but instead through the telecommunications network of Versatel Belgium NV (official name of the carrier). The latter will bear full responsibility for the processing and billing of these calls. The undersigned declares to be aware that the activation of the pre-selection of the carrier will be terminated automatically if one or more of the following circumstances occur, and that in such cases Belgacom can in no way be held responsible:
- the number of the connection in question is changed (e.g. as a result of moving to a different phone line);
- transformation of a PSTN line into an ISDN line, and vice versa;
- the contract concerning the phone connection is transferred to another customer;
- change of contract concerning the phone connection, whereby the customer chooses a user's category for which the activation of the pre-selection of the carrier is not available as a result of a normative ruling;
- change of the phone-in range of numbers;
- the contract concerning the phone connection is terminated or nullified for whatever reason.

The undersigned declares to be aware that outside of the above cases, he can end the activation of the pre-selection of the carrier himself by submitting a request to this end to Belgacom.
The present activation of the pre-selection of the carrier causes the annulment of every pre-selection of a previous carrier activated on my line. In case there was already a pre-selection of a carrier activated on my line, I request Belgacom by signing this authorization to terminate the services of the previous selected carrier, and I declare that I will fulfill all contractual obligations regarding this carrier.
The undersigned authorizes Belgacom to annul the activation of the pre-selection of the carrier from the moment the interconnection between this carrier and Belgacom is terminated for whatever reason. This annulment does not infringe on my right to have another carrier activated at any time.
Approved by the Belgian Institute for Postal services and Telecommunication on Dec. 19, 2001.
